

Resits – What students will do and see

You will also get a brief insight in what submitting an assignment looks like for students, and how students will be able to access their feedback.

What submitting an assignment looks like for students

<p>1 When students enter the resit space, they will click on the tile in the Visual TOC that says 'Please submit your assignment here' (1).</p> <p>This will take students to the content area, where they can access the assignment linked into the table of contents (2).</p> <p>Students will click on the link that says 'Resit Assignment'.</p>	
<p>2 This will take them to the assignment submission area where they can see any instructions you provided (1), and can submit their own assignment (2).</p> <p>Once they have uploaded a file, they have the option to leave a comment (3), or can simply click on the blue 'Submit' button on the bottom (4).</p>	

3	<p>Once students have submitted their assignment, they will see a submission confirmation on their screen (1), and will also be sent a submission receipt via email (2).</p>	 <p>The screenshot displays two parts of the student experience. The top part is the 'Resit Assignment' submission interface. It includes an 'Instructions' section with a prompt to read the attached 'Resits.docx' (3.03 MB) and submit the finished assignment. Below this is the 'Submissions' section, which shows a list of submitted files. A file named 'Sample Assignment.docx' (13 KB) is listed with a timestamp of '12 July 2019 10:08 AM'. A purple circle with the number '1' is placed over this submission entry, with arrows pointing to it from the left and right. Below the submission list is a file upload area with the text 'Drop files here, or click below!' and buttons for 'Upload', 'Record', and 'Choose Existing'. A note states 'You can upload files up to a maximum of 1 GB.' At the bottom right of the upload area, a green message reads 'Confirmation Email Sent Successfully'. The bottom part of the screenshot is an email confirmation from 'D2L Support <email@universityofhi.brightspace.com>' titled 'Submission receipt'. The email is addressed to 'Carolyn Radtke' and includes a note: 'We removed extra line breaks from this message.' A purple circle with the number '2' is placed over the email header area. The email body confirms the successful submission to the 'Resit Assignment' folder and provides the following details: Submission ID: 206, Received: Friday, 12 July 2019 10:08 AM BST Org Unit: Resits2019 template, and File(s): Sample Assignment.docx.</p>

How students will be able to access their feedback

1

Once you release feedback and marks to students, they will get a notification in their ‘Update Alerts’ area.

When they click on the link to view their feedback, they will be taken to the feedback for this particular assignment.

2

Once the feedback opens, students will be able to see any submission feedback you provided in the text field (1), any feedback provided using a Brightspace rubrics (2), their score (3), as well as any attached files with feedback (4).

They will also be able to see when you published the feedback (5).

If you used Turnitin® to mark their assignment, they will be able to access their feedback and mark in Turnitin® by accessing the Turnitin® feedback studio via the® GradeMark® link (6).
